

MIRACLE - GORDON

Could have been so easy
To have lived my life so different
And to follow down the road
Of wandering despair
Then like a wave of sunshine
You appeared just like a vision
And opened up your heart
And made me live again

You're all I ever wanted in a miracle
You make my life so wonderful
With everything you do
You're all I ever wanted in a miracle

I do believe that there's a reason to love
At night as I lay sleeping
I forget that you are near me
And awake to find you lying
So close and so secure
I've never had this feeling
Of such deep profound devotion
It beckons to my soul
And fills my heart with love

Like a bolt of deadly lightning flashing through my mind
I remember the time that I was oh, so alone
So baby, don't go, don't go.
