

Plan Angel

ELEVATOR PITCH PLAN ANGEL

CREATION

Plan Angel was created by three friends who joined forces to found a non-profit organisation dedicated to human rights. Marcia, Luis Carlos and Yajaira all share the same passion: fighting for human rights.

MISSION

In this world where people create so many opportunities and where so many people are living a good life, there are still many people who do not yet have these opportunities. Several factors are at the root of this including not knowing where the right help is available, getting the wrong help and a lack of funds. Plan Angel wants to help everyone no matter what their circumstances.

VISION

Plan Angel wants to offer better care to people with many questions. This is what Plan Angel wants to achieve both nationally and internationally. Plan Angel wants to create a place that every human being, no matter what nationality, can go to for help.

OBJECTIVE

Plan Angel starts by offering help to people in need in several countries. Plan Angel plans to operate around the entire world in the medium and long term.

STRATEGY

Through projects and awareness it is possible to make changes and to offer the right care to people who are entitled to it. Every project is led by a group of specialists who have a personal network. This allows various projects to reach large groups of people who are in need of help and also people who want to offer help. Plan Angel would like to cooperate with parties who have the same objective. It is always important to pursue the right objectives: Cooperation is the key to change!

ACCESSIBILITY

Plan Angel wants to be accessible to everyone. It wants to be open to anyone asking for information. Plan Angel conveys its opinion in its centre: It wants to live up to its belief in human rights. All other opinions are personal. Plan Angel likes dealing with serious result-oriented projects.
